

Transportation

It is important for your child and the school to know how they will go home each day and the proper procedures to do so. Will they be a bus rider, car rider, or walker?

Car Riders

All car riders should be dropped off each morning through the circle drive on the side of the school on Merritt Street between 7:45 and 8:00 each morning. Students are to be picked up each day in the same area. You must be in the circle for your child to be picked up. We do not load on Merritt Street. No child should be dropped off or picked up on Livingston Street or Ninth Street. It is not safe. Parents of car riders must be in line. Please stay in or remain beside your car. We will load your child. Please form one line in the morning and two lines in the afternoon. Do not pull away when your child is loaded until you are signaled to do so. This will keep all children safe. If you need to come into the building, please park in a designated space in the parking lot and walk your children in securely by taking their hand and not allowing them to run ahead or lag behind.

Walkers

Walkers will be dismissed at 3:00, before the car rider circle begins to move. They will need to cross with the Crossing Guard on Merritt Street.

Please Note: Only bus riders are dropped off and dismissed in the front of the school on 9th Street. This is for all students' safety
